Made in Germany

**mp aquariums – modern design – quality down to the last detail**

mp (Müller + Pflieger) – part of the EHEIM Aquatics Group – is one of the leading European manufacturers of aquarium combinations and aquarium and terrarium starter kits. In over 50 years experience the company has been guided by 3 basic principles:

- **Modern, up to date design and colour schemes –** guaranteeing easy integration of mp furniture aquariums into almost all interiors
- **First class quality down to the last detail –** giving years of pleasure in the hobby for all ages. mp aquariums combine safety, functionality and attractiveness; from high quality siliconisation, light units tested to the very highest standards and certified by German Quality Control Organisation TÜV, through to practical, well-designed and attractive modern furniture
- **Giving the customers what they want –** whether it be an attractive aquarium combination designed to fit into your home or a safety-certified starter kit to help you into the hobby without start up problems, mp aquariums offer a wide range of options for this fascinating hobby, so that you will always find an aquarium to suit you.

In the following pages you will get an introduction to our product range. If you want to find out more about us and our products, including instruction manuals and advice on setting up an aquarium, please visit our web site at [www.eheim.de](http://www.eheim.de) or [www.mp-aquaristik.de](http://www.mp-aquaristik.de)

mp aquariums are a byword for modern design and functionality, from the ultra-modern scubabay to the contemporary styles of the scuba-range, plus a wide range of starter kits.

# Starter Kits

- Comprehensive range from 37l. to 180l.
- All kits include original EHEIM internal power filter and JÄGER shockproof glass heater
- Manufactured to the highest standard according to DIN 32 622 standard
- All electrical parts and accessories certified to German TÜV/VDE standard
- Feeding flap in hood fits automatic fish feeder

## mp starter kits

### aquapro

These new top of the range starter kits are available in 4 sizes. They are manufactured using the highest quality float glass and incorporating the best technical equipment including EHEIM aquaball internal filter and JÄGER heater as well as user-friendly hood with light tubes and reflectors for easy maintenance.

aquapro	60	60XL	80	100
W x D x H cm	60 x 30 x 35	60 x 35 x 40	80 x 35 x 45	100 x 40 x 45

### aquastar/aquastar plus

High quality, economical starter kits using quality technical equipment from EHEIM and JÄGER plus quality assured lighting and hood with reflectors. The aquastar plus version comes with a bottom trim.

aquastar	60	60 plus	80 plus
W x D x H cm	60 x 30 x 30	60 x 30 x 30	80 x 30 x 40

### aquabay

Starter kits with a difference. A bow front glass gives the aquabay a sense of extra depth. Equipped with EHEIM internal filter and JÄGER heater.

aquabay	60	80
W x D x H cm	60 x 30(35) x 33	80 x 30(35) x 40

### aquamagic

An attractive 6-sided compact desk or table top aquarium. Fits anywhere. Can be viewed from all sides. Hood and bottom trim in aluminium-look finish.

aquamagic	
W/D x H cm	ø 40 x 35

# Starter Kits

- Terrarium/vivarium sets in 2 sizes
- Special ventilation with recessed grill preventing misting of front glass
- Complete with light unit (without tubes)
- Acrylic cover for light unit (won't block UV light)
- Can be filled with water to the depth of the ventilation (approx. 6cm.)

terra set  
W x D x H cm  
60 x 40 x 37  
80 x 40 x 50

- Solid, strong and economical cabinets for aquariums and terrariums
- Aquaduo stands available in 3 modern colour schemes

## Combinations

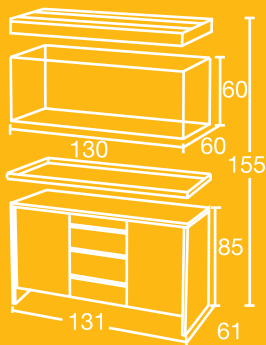

### scubaline 130

- Modern design in attractive colour schemes
- High quality furniture with ABS-edging and modern hinge fittings
- Push-to-open cabinet doors with magnetic closures
- 16 mm. back panels
- Including light unit with a choice of T5 or T8 tubes
- Varilux aquarium hood

Colour scheme  
scubaline 130

wenge + white

#### scubaline 130

Total dimensions W x D x H cm 131 x 61 x 155

#### mp Varilux hood technology – functionality and safety with style

- German TÜV standard approved, according to IP67 test for waterproofing protection against accidental submersion of hood in water – much safer than usual IP54 (which only gives protection against water splashes)
- Electronic ballast reduces electricity consumption and gives extended light tube life
- Hood flaps with strengtheners – white coating on inside of flaps gives 15% more light use than uncoated black flaps

## Combinations

**mp** scubabay

- Patented design
- Sliding glass panels inside aquarium top
- High-tech foil as aquarium trim
- Maintenance shaft with matted mirror finish to hide cables and hose etc.
- Bottom drilled for filter inlet
- Includes T5 lighting
